

Mikrosimpozijum

Hemijska teorija grafova Chemical Graph Theory

Institut za matematiku i informatiku
Prirodno-matematički fakultet

Četvrtak, 13. jun 2013. 10⁰⁰ h, sala A-II-21

Program

Darko Dimitrov, Slobodni Univerzitet Berlin
How to measure the irregularity of a graph

Vesna Andova, Univerzitet Ćirilo i Metodije, Skoplje
Fullerene graphs and some related graph invariants

Riste Škrekovski, Univerzitet u Ljubljani
Some results on network centrality indices

Ivan Gutman, PMF Kragujevac
Hunt for trees with minimal ABC index

Boris Furtula, PMF Kragujevac
Smoothness of topological indices
